COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class "a" books received with informal applications or informal affidavits, or without the registration fee; or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class "b" books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books are sent forward from the Copyright Office for cataloguing, for the most part on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 21,157 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1911, inclusive, 2,714 were of class "a" and 18,443 of class "b." Of 18,443 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 8,584 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1911, to January 31, 1912, inclusive, 1,030 were of class "a" and 7,554 of class "b." Of the 7,554 books of class "b" each book was sent up on the day it was received in the Copyright Office.

PROMPT INCLUSION OF TITLES IN THIS CATALOGUE.

The Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection. A monthly index of the authors, copyright proprietors, and anonymous titles of books follows each month's issues, and a complete index to all the titles of the entire year is printed as promptly as possible after the books for the year have been received.

In order to secure to librarians the promptest possible information as to the American and foreign books deposited for copyright and included in the Catalogue of Copyright Entries for Books, one copy of the two required by law to be deposited is sent on the day of its receipt to the Catalogue Division of the Library of Congress. The titles for such books are distinguished by the addition of a star (*) following the date of receipt of copies. As rapidly as these titles are returned to the Copyright Office they are printed from day to day in signatures of not less than four pages, and the Superintendent of Documents forwards these signatures at once to all libraries subscribing to the Catalogue or receiving the Catalogue as depository libraries. This mode of printing is for Part 1, Group 1 (books proper) only. The monthly index number is supplied each month. This monthly issue also contains the list of copyright renewals and extensions made for books under section 24 of the act of March 4, 1909, and any other text matter not necessary to the list of book titles. In order to economize and to secure speed in printing and delivery, these signatures have no title or cover, but each has continuous paging and in the lower left-hand corner in large type the year of the Catalogue, its sequence number, and date of printing.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herdbooks, and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons, and addresses prepared for oral delivery, Dramatic compositions, and Maps, and a list of copyright renewals and extensions for Dramatic compositions.

Under the act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases and registration follows deposit of copies with an application for entry in the Copyright Office.

The copyright notice states when the book was published, when the copies were received, the class and entry number, and the claimant of copyright. To save space the notice is abbreviated as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons, and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2 c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copy-

right registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number, by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1 for 1912, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

In compliance with the above-cited provisions of law,

On receipt of such information and request, such copyright book, map, photograph, or other article will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such copyright book, map, photograph, or other article should be made as early as possible during the year 1912. If no such application has been received during said year, such copyright book, map, photograph, or other article may be disposed of in accordance with the provisions of section 60 of said act.

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 7380 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to Febraury 1, 1911, inclusive, 760 were of class "a" and 6620 of class "b." Of the 6620 books of class "b" each book was sent up on the day it was received in the Copyright Office.

2198—pt. 1, no. 1—11—1*

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

New Series, Volume 8, No. 2

WASHINGTON
GOVERNMENT PRINTING OFFICE
LIBRARY DIVISION
1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Published February 9, 1911

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 7586 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to February 8, 1911, inclusive, 785 were of class "a" and 6801 of class "b". Of the 6801 books of class "b" each book was sent up on the day it was received in the Copyright Office.

2229—pt. 1, no. 2—11—1*

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

NOTICE.

THE RETURN TO COPYRIGHT CLAIMANTS OF PRINTED COPYRIGHT BOOKS, PAMPHLETS, CIRCULARS, LEAFLETS, ETC.

Sections 59 and 60 of the "Act to amend and consolidate the Acts respecting copyright" provide as follows:

SEC. 59. That of the articles deposited in the copyright office under the provisions of the copyright laws of the United States or of this Act, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress, including the law library, and what other books or articles shall be placed in the reserve collections of the Library of Congress for sale or exchange, or be transferred to other governmental libraries in the District of Columbia for use therein.

SEC. 60. That of any articles undisposed of as above provided, together with all titles and correspondence relating thereto, the Librarian of Congress and the register of copyrights jointly shall, at suitable intervals, determine what of these received during any period of years it is desirable or useful to preserve in the permanent files of the copyright office, and, after due notice as hereinafter provided, may within their discretion cause the remaining articles and other things to be destroyed: *Provided,* That there shall be printed in the Catalogue of Copyright Entries from February to November, inclusive, a statement of the years of receipt of such articles and a notice to permit any author, copyright proprietor, or other lawful claimant to claim and remove before the expiration of the month of December of that year anything found which relates to any of his productions deposited or registered for copyright within the period of years stated, not reserved or disposed of as provided for in this Act: *And provided further,* That no manuscript of an unpublished work shall be destroyed during its term of copyright without specific notice to the copyright proprietor of record, permitting him to claim and remove it.

In compliance with the above-cited provisions of law,

Notice is hereby given to the author, copyright proprietor, or other lawful claimant of any printed book, pamphlet, circular, leaflet, etc., deposited for copyright registration in the Office of the Librarian of Congress during the years 1870 to 1879, inclusive, that any such author, copyright proprietor, or other lawful claimant

may send to the Register of Copyrights his full name, the full title of the book, pamphlet, circular or leaflet, the year in which copyright registration was made, and, if possible, the number under which such book, pamphlet, circular, or leaflet was entered for copyright, with a request for its return. On receipt of such information and request, such book, pamphlet, circular, or leaflet will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such book or pamphlet, etc., should be made as early as possible during the year 1911. If no such application has been received during said year, such book or pamphlet, etc. may be disposed of in accordance with the provisions of section 60 of said Act.

WASHINGTON
GOVERNMENT PRINTING OFFICE
LIBRARY DIVISION
1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Published February 16, 1911

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 7805 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to February 15, 1911, inclusive, 806 were of class "a" and 6999 of class "b." Of the 6999 books of class "b" each book was sent up on the day it was received in the Copyright Office.

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

NOTICE.

Sections 59 and 60 of the "Act to amend and consolidate the Acts respecting copyright" provide as follows:

SEC. 59. That of the articles deposited in the copyright office under the provisions of the copyright laws of the United States or of this Act, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress, including the law library, and what other books or articles shall be placed in the reserve collections of the Library of Congress for sale or exchange, or be transferred to other governmental libraries in the District of Columbia for use therein.

SEC. 60. That of any articles undisposed of as above provided, together with all titles and correspondence relating thereto, the Librarian of Congress and the register of copyrights jointly shall, at suitable intervals, determine what of these received during any period of years it is desirable or useful to preserve in the permanent files of the copyright office, and, after due notice as hereinafter provided, may within their discretion cause the remaining articles and other things to be destroyed: *Provided,* That there shall be printed in the Catalogue of Copyright Entries from February to November, inclusive, a statement of the years of receipt of such articles and a notice to permit any author, copyright proprietor, or other lawful claimant to claim and remove before the expiration of the month of December of that year anything found which relates to any of his productions deposited or registered for copyright within the period of years stated, not reserved or disposed of as provided for in this Act: *And provided further,* That no manuscript of an unpublished work shall be destroyed during its term of copyright without specific notice to the copyright proprietor of record, permitting him to claim and remove it.

In compliance with the above-cited provisions of law,

Notice is hereby given to the author, copyright proprietor, or other lawful claimant of any printed book, pamphlet, circular, leaflet, etc., deposited for copyright registration in the Office of the Librarian of Congress during the years 1870 to 1879, inclusive, that any such author, copyright proprietor, or other lawful claimant

On receipt of such information and request, such book, pamphlet, circular, or leaflet will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such book or pamphlet, etc., should be made as early as possible during the year 1911. If no such application has been received during said year, such book or pamphlet, etc. may be disposed of in accordance with the provisions of section 60 of said Act.

WASHINGTON
GOVERNMENT PRINTING OFFICE
LIBRARY DIVISION
1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Published February 23, 1911

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 7995 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to February 22, 1911, inclusive, 829 were of class "a" and 7166 of class "b." Of the 7166 books of class "b" each book was sent up on the day it was received in the Copyright Office.

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

OF MARCH 3, 1891, OF JUNE 30, 1906, AND
OF MARCH 4, 1909

PART 1, GROUP 1

BOOKS

1911

New Series, Volume 8, No. 5

WASHINGTON
GOVERNMENT PRINTING OFFICE
LIBRARY DIVISION
1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Published March 2, 1911

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 8232 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to March 1, 1911, inclusive, 860 were of class "a" and 7372 of class "b." Of the 7372 books of class "b" each book was sent up on the day it was received in the Copyright Office.

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

NOTICE.

THE RETURN TO COPYRIGHT CLAIMANTS OF PRINTED COPYRIGHT BOOKS, PAMPHLETS, CIRCULARS, LEAFLETS, ETC.

Sections 59 and 60 of the "Act to amend and consolidate the Acts respecting copyright" provide as follows:

SEC. 59. That of the articles deposited in the copyright office under the provisions of the copyright laws of the United States or of this Act, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress, including the law library, and what other books or articles shall be placed in the reserve collections of the Library of Congress for sale or exchange, or be transferred to other governmental libraries in the District of Columbia for use therein.

SEC. 60. That of any articles undisposed of as above provided, together with all titles and correspondence relating thereto, the Librarian of Congress and the register of copyrights jointly shall, at suitable intervals, determine what of these received during any period of years it is desirable or useful to preserve in the permanent files of the copyright office, and, after due notice as hereinafter provided, may within their discretion cause the remaining articles and other things to be destroyed: *Provided*, That there shall be printed in the Catalogue of Copyright Entries from February to November, inclusive, a statement of the years of receipt of such articles and a notice to permit any author, copyright proprietor, or other lawful claimant to claim and remove before the expiration of the month of December of that year anything found which relates to any of his productions deposited or registered for copyright within the period of years stated, not reserved or disposed of as provided for in this Act: *And provided further*, That no manuscript of an unpublished work shall be destroyed during its term of copyright without specific notice to the copyright proprietor of record, permitting him to claim and remove it.

In compliance with the above-cited provisions of law,

Notice is hereby given to the author, copyright proprietor, or other lawful claimant of any printed book, pamphlet, circular, leaflet, etc., deposited for copyright registration in the Office of the Librarian of Congress during the years 1870 to 1879, inclusive, that any such author, copyright proprietor, or other lawful claimant

On receipt of such information and request, such book, pamphlet, circular, or leaflet will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such book or pamphlet, etc., should be made as early as possible during the year 1911. If no such application has been received during said year, such book or pamphlet, etc. may be disposed of in accordance with the provisions of section 60 of said Act.

New Series, Volume 8, No. 6

WASHINGTON
GOVERNMENT PRINTING OFFICE
LIBRARY DIVISION
1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Published March 9, 1911

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 8447 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to March 7, 1911, inclusive, 880 were of class "a" and 7567 of class "b." Of the 7567 books of class "b" each book was sent up on the day it was received in the Copyright Office.

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

NOTICE.

THE RETURN TO COPYRIGHT CLAIMANTS OF PRINTED COPYRIGHT BOOKS, PAMPHLETS, CIRCULARS, LEAFLETS, ETC.

Sections 59 and 60 of the "Act to amend and consolidate the Acts respecting copyright" provide as follows:

SEC. 59. That of the articles deposited in the copyright office under the provisions of the copyright laws of the United States or of this Act, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress, including the law library, and what other books or articles shall be placed in the reserve collections of the Library of Congress for sale or exchange, or be transferred to other governmental libraries in the District of Columbia for use therein.

SEC. 60. That of any articles undisposed of as above provided, together with all titles and correspondence relating thereto, the Librarian of Congress and the register of copyrights jointly shall, at suitable intervals, determine what of these received during any period of years it is desirable or useful to preserve in the permanent files of the copyright office, and, after due notice as hereinafter provided, may within their discretion cause the remaining articles and other things to be destroyed: *Provided,* That there shall be printed in the Catalogue of Copyright Entries from February to November, inclusive, a statement of the years of receipt of such articles and a notice to permit any author, copyright proprietor, or other lawful claimant to claim and remove before the expiration of the month of December of that year anything found which relates to any of his productions deposited or registered for copyright within the period of years stated, not reserved or disposed of as provided for in this Act: *And provided further,* That no manuscript of an unpublished work shall be destroyed during its term of copyright without specific notice to the copyright proprietor of record, permitting him to claim and remove it.

In compliance with the above-cited provisions of law,

Notice is hereby given to the author, copyright proprietor, or other lawful claimant of any printed book, pamphlet, circular, leaflet, etc., deposited for copyright registration in the Office of the Librarian of Congress during the years 1870 to 1879, inclusive, that any such author, copyright proprietor, or other lawful claimant

may send to the Register of Copyrights his full name, the full title of the book, pamphlet, circular or leaflet, the year in which copyright registration was made, and, if possible, the number under which such book, pamphlet, circular, or leaflet was entered for copyright, with a request for its return. On receipt of such information and request, such book, pamphlet, circular, or leaflet will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such book or pamphlet, etc., should be made as early as possible during the year 1911. If no such application has been received during said year, such book or pamphlet, etc. may be disposed of in accordance with the provisions of section 60 of said Act.

WASHINGTON
GOVERNMENT PRINTING OFFICE
LIBRARY DIVISION
1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Published March 16, 1911

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 8737 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to March 14, 1911, inclusive, 909 were of class "a" and 7828 of class "b." Of the 7828 books of class "b" each book was sent up on the day it was received in the Copyright Office.

2347—pt. 1, no. 7—11—1*

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

NOTICE.

THE RETURN TO COPYRIGHT CLAIMANTS OF PRINTED COPYRIGHT BOOKS, PAMPHLETS, CIRCULARS, LEAFLETS, ETC.

Sections 59 and 60 of the "Act to amend and consolidate the Acts respecting copyright" provide as follows:

SEC. 59. That of the articles deposited in the copyright office under the provisions of the copyright laws of the United States or of this Act, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress, including the law library, and what other books or articles shall be placed in the reserve collections of the Library of Congress for sale or exchange, or be transferred to other governmental libraries in the District of Columbia for use therein.

SEC. 60. That of any articles undisposed of as above provided, together with all titles and correspondence relating thereto, the Librarian of Congress and the register of copyrights jointly shall, at suitable intervals, determine what of these received during any period of years it is desirable or useful to preserve in the permanent files of the copyright office, and, after due notice as hereinafter provided, may within their discretion cause the remaining articles and other things to be destroyed: *Provided,* That there shall be printed in the Catalogue of Copyright Entries from February to November, inclusive, a statement of the years of receipt of such articles and a notice to permit any author, copyright proprietor, or other lawful claimant to claim and remove before the expiration of the month of December of that year anything found which relates to any of his productions deposited or registered for copyright within the period of years stated, not reserved or disposed of as provided for in this Act: *And provided further,* That no manuscript of an unpublished work shall be destroyed during its term of copyright without specific notice to the copyright proprietor of record, permitting him to claim and remove it.

In compliance with the above-cited provisions of law,

Notice is hereby given to the author, copyright proprietor, or other lawful claimant of any printed book, pamphlet, circular, leaflet, etc., deposited for copyright registration in the Office of the Librarian of Congress during the years 1870 to 1879, inclusive, that any such author, copyright proprietor, or other lawful claimant

may send to the Register of Copyrights his full name, the full title of the book, pamphlet, circular or leaflet, the year in which copyright registration was made, and, if possible, the number under which such book, pamphlet, circular, or leaflet was entered for copyright, with a request for its return. On receipt of such information and request, such book, pamphlet, circular, or leaflet will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such book or pamphlet, etc., should be made as early as possible during the year 1911. If no such application has been received during said year, such book or pamphlet, etc. may be disposed of in accordance with the provisions of section 60 of said Act.

New Series, Volume 8, no. 8

WASHINGTON
GOVERNMENT PRINTING OFFICE
LIBRARY DIVISION
1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Published March 23, 1911

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 8966 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to March 21, 1911, inclusive, 945 were of class "a" and 8021 of class "b." Of the 8021 books of class "b" each book was sent up on the day it was received in the Copyright Office.

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

NOTICE.

THE RETURN TO COPYRIGHT CLAIMANTS OF PRINTED COPYRIGHT BOOKS, PAMPHLETS, CIRCULARS, LEAFLETS, ETC.

Sections 59 and 60 of the "Act to amend and consolidate the Acts respecting copyright" provide as follows:

SEC. 59. That of the articles deposited in the copyright office under the provisions of the copyright laws of the United States or of this Act, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress, including the law library, and what other books or articles shall be placed in the reserve collections of the Library of Congress for sale or exchange, or be transferred to other governmental libraries in the District of Columbia for use therein.

SEC. 60. That of any articles undisposed of as above provided, together with all titles and correspondence relating thereto, the Librarian of Congress and the register of copyrights jointly shall, at suitable intervals, determine what of these received during any period of years it is desirable or useful to preserve in the permanent files of the copyright office, and, after due notice as hereinafter provided, may within their discretion cause the remaining articles and other things to be destroyed: *Provided,* That there shall be printed in the Catalogue of Copyright Entries from February to November, inclusive, a statement of the years of receipt of such articles and a notice to permit any author, copyright proprietor, or other lawful claimant to claim and remove before the expiration of the month of December of that year anything found which relates to any of his productions deposited or registered for copyright within the period of years stated, not reserved or disposed of as provided for in this Act: *And provided further,* That no manuscript of an unpublished work shall be destroyed during its term of copyright without specific notice to the copyright proprietor of record, permitting him to claim and remove it.

In compliance with the above-cited provisions of law,

Notice is hereby given to the author, copyright proprietor, or other lawful claimant of any printed book, pamphlet, circular, leaflet, etc., deposited for copyright registration in the Office of the Librarian of Congress during the years 1870 to 1879, inclusive, that any such author, copyright proprietor, or other lawful claimant

On receipt of such information and request, such book, pamphlet, circular, or leaflet will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such book or pamphlet, etc., should be made as early as possible during the year 1911. If no such application has been received during said year, such book or pamphlet, etc. may be disposed of in accordance with the provisions of section 60 of said Act.
